★1, Description of Selective Professional Course and Selective Practice:

Selective Professional Courses are divided into modules according to different competency requirements, and students must take one of the modules and achieve the required credits for that module. Professional practice modules must be taken in accordance with the corresponding professional course modules.

(1) Business Modules

This module consists of three theoretical courses, namely Introduction to International Business, Business Writing and Business Reading, and two practical courses, International Trade Simulation and Business Simulation and Negotiation. The main contents of Introduction to International Business include the basic theories of international trade, basic skills and practices of international trading of goods, etc., aiming to familiarize students with the basic theoretical knowledge of international trade, while the study of Business Writing and Business Reading enables students to master the basic reading skills of materials in the business field and the ability to write in common styles, and to improve their critical thinking skills and written business communication skills. The practical training in International Trade Simulation aims to enhance students' understanding and mastery of common international trade knowledge and rules by simulating the operation of common international trade software with the help of instructors, thus laying a good theoretical and practical foundation for students who wish to engage in international trade and improving their overall professional ability.

(2) Translation Modules

This module consists of the theoretical courses Business Translation, Scientific and Technical Translation and Interpretation Theory and Practice II, and its corresponding practical courses Practical Translation Workshop and Computer Assisted Translation. Theoretical courses mainly consist of basic translation theories, common translation

methods in English-Chinese and Chinese-English, as well as the characteristics of business English style and scientific and technical literature style and their translation skills. The course also aims to enhance the English-Chinese bilingual translation skills through translation workshops and the use of commonly used computer translation software, etc., so as to build up a certain level of translation theoretical and practical skills for students who wish to engage in applied translation work after graduation.

(3) Education Modules

This module consists of theoretical courses in Educational Psychology, English Teaching Theory and English Teaching Methods and Skills and English Classroom Teaching Practice. The main content includes the basic theories and knowledge of educational psychology and the basic theories and methods of English education, and the basic skills that teachers should master. This module uses modern educational concepts and multimedia teaching equipment, and adopts teaching methods such as the case method and discussion method, aiming to cultivate students' basic knowledge and skills in English education, and through practical training in English classroom teaching, with the help of instructors, students will master the basic theories and knowledge of English teaching, be familiar with common English teaching methods and means, and have the basic theoretical literacy and ability to engage in English education. This course will provide students with a good foundation for their future career in English language education.

2, Explanation of the relevance of professional certificates to the course:

Students will be able to take the professional qualification examinations related to their major: BEC, translation qualification and teaching qualification through the courses of professional foundation, professional courses and professional practical courses.

Students who have obtained the BEC may apply for exemptions and receive corresponding credits for courses such as Theory and Practice of International Trade, Business Writing and Business Reading; students who have obtained the Translation Qualification may apply for exemptions and receive corresponding credits for courses such as Theory and Practice of Translation I and II and Theory and Practice of Interpretation; students who have obtained the Teaching Qualification may apply for exemptions and receive corresponding credits for courses such as Educational Psychology, Theory of English Language Teaching and English Teaching Methods and Skills" and other courses are exempted and receive corresponding credits.

X. Prerequisite for Course Study
